

XPLC (Private Label Card)

XPLC is an integral part of the Mobile Knowledge family of products and services. Mobile Knowledge is a world leader in mobile data communications, dispatch and GPS-based vehicle location tracking systems. Mobile Knowledge offers a family of products and services so fleet and vehicle owners can increase mobile worker productivity and improve asset utilization.

XPLC

Mobile Knowledge's XPLC allows you to create your own payment cards to use with your XDS system for cashless payment. The card information can be entered via the card swipe utility include on Mobile Knowledge MDTs (Mobile Data Terminals), or manually using the MDT keypad.

FAST

Cashless/Voucherless payment

Provision Card Parameters (credit limit, daily transaction limit, number of transactions per day, etc.)

Control Usage

Pre-defined Search Filters

FLEXIBLE

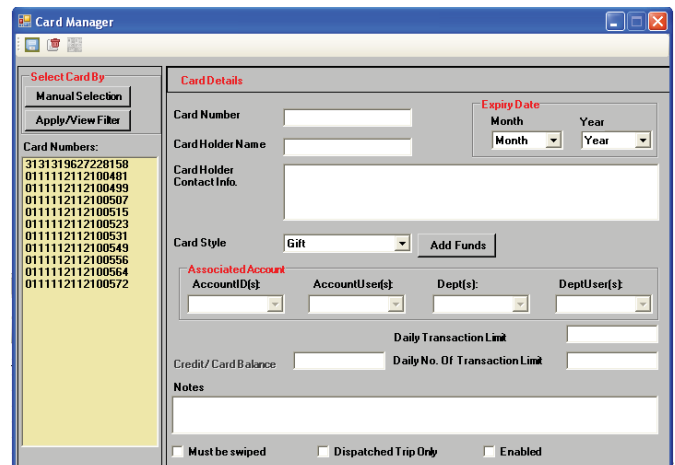

Detailed Gift Card and Credit Card Reports

These cards are recognized by the XDS system as either gift cards (with a pre-defined amount) or as credit based cards that may be tied directly with the XDS account system.

FEATURE-RICH

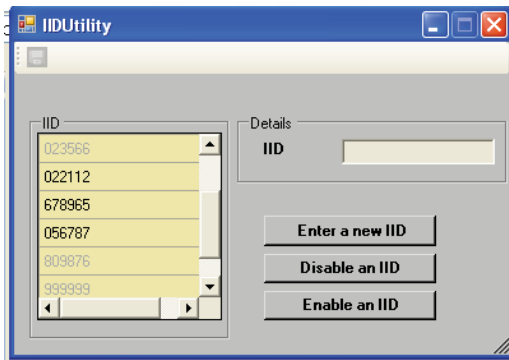

Stay ahead of your competition by streamlining your operation, increasing payment options and offering a new, secure and accountable service to your customers with the Mobile Knowledge XPLC.

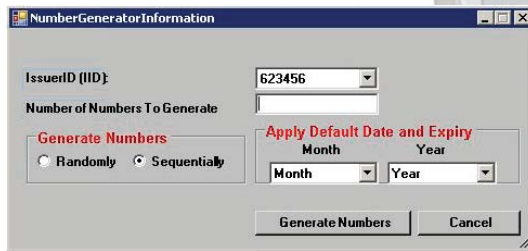

XPLC (Private Label Card)

Benefits Include

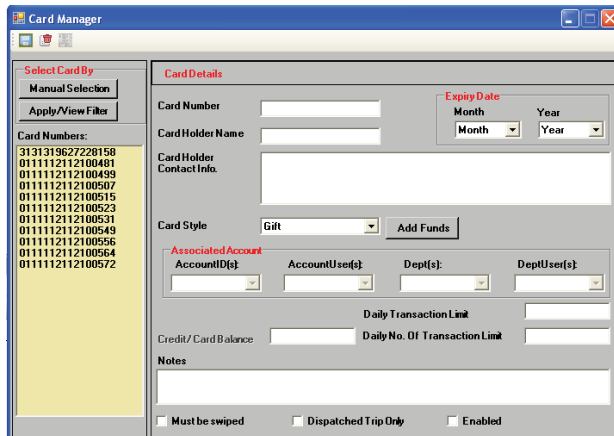

- Significant operation efficiencies and customer service improvements
- End disputes due to illegibility of slips, wrong account assignments and incorrect billing amounts
- Eliminate the laborious process of sorting, validating and totalling vouchers and chits
- Huge savings with the decrease in operational and administrative costs as well as supplies, mailing and postage costs
