

**Chicago Carriage Selects Cabmate Dispatch
*Enhanced Dispatch Facilities to Drive Leading Chicago Operator***

Ottawa, Canada, September 10, 2009 – With approximately 1000 vehicles, Chicago Carriage ranks amongst the largest luxury sedan operators in North America. Currently leveraging the Series 2000 Mobile Data Terminal as its in-vehicle computer of choice, Chicago Carriage has entered into agreements to replace its existing third party dispatch application with the powerful Cabmate Dispatch Engine from Mobile Knowledge.

Chicago Carriage was founded in 1999 by industry veteran and serial entrepreneur, Simon Garber. With extensive experience in the Yellow Cab and Black Car markets in North America and Internationally, Mr. Garber is recognized for his commitment and contributions to the communities that his companies service. Chicago Carriage has built its business and reputation over the past decade based upon a commitment to upscale service and unparalleled customer satisfaction. Mr. Garber is also distinguished as recipient of the Taxi, Limousine, and Paratransit Association's (TLPA) Operator of the Year for 2008.

When asked about his decision to migrate to the Mobile Knowledge host dispatch system, Mr. Garber commented, "We have been doing business with Mobile Knowledge since the turn of the Millennium. Mobile Knowledge offers exceptional hardware and software, and has built a strong reputation in the Chicago market. Many of our Members are familiar with Cabmate, and are eager to see the new system implemented."

Leveraging the SCO UNIX Operating System, and Cache database, Cabmate is widely regarded as the most comprehensive and powerful Dispatch Engine on the market today. Evolved over the past 25 years the features and flexibility inherent in the Cabmate system are unparalleled. With many clients measuring uninterrupted server up time in years as opposed to weeks or months, Cabmate offers unrivaled stability and trouble free operation to a number of the world's largest and most successful fleets.

Mr. Kevin French, President of Mobile Knowledge expressed his pleasure with the decision, "Chicago Carriage is a highly valued client, and we are extremely pleased at the opportunity to enhance the existing relationship by way of this further technology commitment. I am confident that Chicago Carriage will realize immediate efficiencies on activation of the system, and we look forward to supporting the Company's continued growth in the years ahead."

Supported by Mobile Knowledge Engineers and Technical Support Specialists, 24/7/365, the Cabmate Dispatch Engine is suitable for fleets ranging in size from 500 to >10,000 vehicles.
